Subject: Official confirmation and approval of the National Team Technology and Analytics Partnership

Dear Mr Sumit R.U.,

On behalf of _____ (the Federation), we are pleased to confirm our participation in and approval of the 8by8verse.com National Team Technology and Analytics Partnership Programme in connection with the 46th FIDE Chess Olympiad 2026 in Samarkand, Uzbekistan.

We appreciate the initiative of 8by8verse.com to support national chess teams through technology, game analytics, player insights, training and digital media support. Accordingly, the Federation is pleased to collaborate on the following.

1. National team technology and analytics support

The Federation will facilitate the participation of its Open and/or Women's national team and, where appropriate, provide the player and team information needed to prepare player profiles, team analytics and performance reports. This may include player names, FIDE identification numbers, photographs and tournament or game information, and other relevant non-confidential material.

2. Interviews with federation representatives

Subject to availability, the Federation will facilitate a short online interview with a representative such as the President, Delegate, Head of Delegation or Team Manager, to introduce the Federation and its preparations for the Olympiad.

3. Player and team captain interviews

Subject to their availability, the Federation will facilitate short online interviews with participating players and team captains. These may be used for team introductions,

player stories and editorial content connected with the programme.

4. Digital collaboration

The Federation will acknowledge 8by8verse.com as its National Team Technology and Analytics Partner for this programme through its official channels, where applicable:

- official federation social-media pages;
- the official federation website;
- team and community communication groups.

5. Special training programme

The Federation is pleased to take part in the proposed live training sessions with an international-master coach, with the dates and timings to be agreed between us.

6. Coordination

The Federation will nominate a contact person for coordination throughout the programme. Both parties will cooperate in good faith so that the national team receives the full benefit of it.

7. Nature of the partnership

We understand that this partnership is offered by 8by8verse.com on a complimentary basis, as part of its initiative to support national chess teams and the development of over-the-board chess. This confirmation creates no financial obligation on the Federation unless separately agreed in writing by both parties.

8. Scope and non-exclusivity

This partnership is non-exclusive. It places no restriction on the Federation working with any other partner, sponsor, supplier or media organisation, before, during or after the event. Its scope is the Chess Olympiad 2026, and either party may end it at any time by written notice, with no cost or liability to either side.

9. Confirmation

We confirm that _____ approves and welcomes this partnership with 8by8verse.com for the Chess Olympiad 2026 National Team Technology and Analytics Programme, and we look forward to working together as we prepare for Samarkand.

Thank you for this initiative and for your support of national chess teams.

Yours sincerely,

Name and designation

Federation
